AUCTION 29

Closing April 3 1994, Sunday, 6:00 p.m. USA Pacific Time

Of interest in this catalog are listings of California tokens from small towns, Portuguese and Spanish tokens, especially from the Spanish Civil War are well-represented. Germany collectors should find something of interest in the large assortment described here.

Lot descriptions are of necessity brief and oriented to numismatists. Sizes are in millimeters, although larger paper pieces are often in inches. Tokens are round unless otherwise indicated. Materials are shown as Al, Br, Cop, Ir, Ld, Nkl, Zn or Pl(astic). When parentheses are used it means that the information enclosed is not in the token legend or describes some device on the token. Catalog numbers are often used to aid description, e.g. (L#101.3) and refer to the most standard U.S. work on the topic at hand. Since listing each reference would be too cumbersome, please write if you need to know which. Dollar values written simply (\$5) mean a suggested bidding range. An MB or Res. enclosed with a dollar value in parentheses (e.g. (MB\$25)) means a "Reserve" or "Minimum Bid". Grading can be only approximate in a series as varied as tokens. Especially when tokens are crudely made, grading is at best subjective. I try to be conservative and in most cases have reduced items by one grade where there is any question in my mind. Comments on my listings and methods of operation are always welcome.

Please remember that a Bidder's Fee of 9% will be added to the sale price. A change has been made in Rule 3 to increase fairness in bidding. Thanks.

(English translation list provided). \$110.00 (CA residents add \$8.80 Sales Tax, postage included in purchase price.)

MAIL BID SALE RULES AND TERMS

1. The sale closes at 6 p.m. USA Pacific Time on the date noted above or until 15 minutes pass with no additional telephone bids. Lots are sold to the highest bidder. In the event of tie bids the lot goes to the earliest arriving bid. Bids of only a few cents difference will be considered tie bids.
2. Bids must be in U.S. Dollars and those under \$3 are respectfully declined.
3. Winning bids will be reduced to a 10% advance over the next highest bid, or the Reserve (Minimum Bid) if any. In the event there is only one bidder, bids will be reduced to the published estimate, but not lower. The maximum reduction will be 65% of the highest bid in any case. Bids will not be reduced under \$25. In general acceptable bids will be those that are at least 60% of the published estimate.
4. Successful bidders will either be billed first or sent winning lots with the bill if they are established customers. Postage, shipping and insurance costs will be added to the invoices where such are appropriate. There will be a minimum charge of \$1 for postage and processing. A Bidder's Fee of 9% or \$1 will be added whichever is higher. California residents must pay 7% Sales Tax. Overseas customers must accept responsibility for postal delivery.

BIDDING BY TELEPHONE? My number is (415) 648-8634. The best hours to reach me are 7-9 a.m. USA Pacific Time. However the least expensive and most certain means to bid is by mail even if only on a postcard. At times business may keep me away from the phone for days. I will accept bids over the phone during the week prior to closing. Current bid levels are available from the computer. However if you request such information, you must bid at least 10% over the highest in order to have your new bid qualify. For items quoting under \$10, you must bid at least \$1 more to qualify. For those who like to call in bids at the last minute, I will have all current bids posted during the last week before closing, but often at the end of the last day this is not possible when they come in rather quickly. 98% of all successful bidding is accomplished with high bids by mail.

O.M.E.G. No. it is not an international terrorist hit squad. Otavi Minen und Eisenbahn Gesellschaft or Otavi Mines and Railroad Company. The firm incorporated in German Southwest Africa in 1902 to exploit the "copper hill" at Tsumeb as well as other sites. To transport the ore a railway was built from the port at Swakopmund. Southwest Africa is now the country of Namibia. It consists of high and low desert, something like Colorado and west Texas combined - without the sagebrush. This token was one of two issued by the company when the homeland, like most colonizers, failed to provide enough currency. Paper notes were issued as well. (See Lot 1196.)
